Our Story

FOUNDER

Sarah Shropshire has been practicing massage in Colorado since 2003. Like her fellow massage colleagues, she experienced practicing massage in a clinic setting being treated like an employee. She also successfully started her own practice, working with 100s of therapists. and 1000s of clients.

Since the beginning, she always envisioned... *"Wouldn't it be great if I could create an environment that had **all of the good** of a larger facility and being in private practice and **none of the bad** from either type of scenario?"*

GROWTH

This is exactly what happened in 2015. We created a space that allows everyone to feel heard, cared for and respected, while enjoying the freedom of being in private practice without the pressure.

Now... we need YOU.

MESSAGE ALL ■

We believe a lot more than *others* think!

We have the brand recognition, marketing plan, and strategic partnerships to enhance the income potential for you. We help with establishing yourself as an expert in advising your clients, which is essential to your credibility. Add this all up and you have a great career opportunity!

We have reversed engineered **Message All**, so that you are not an employee and not an independent contractor. Curious?

OTHER MESSAGE JOBS

We have talked to 100s of massage therapists.

You may start at \$25-\$50/massage hr, but you are usually capped, so even if you grow **YOU**, you won't make more per hour. They promise that the tips will make up for it or a small commission. But what if you don't have scheduled sessions?
